Enclosed is a Category 1 application to request the addition of Pralidoxime Chloride to the Local Optional Scope of Practice for both Santa Barbara County and Ventura County EMS. Also enclosed are treatment protocols, the training program, and the post-training test.

To reduce the size of this file I have not attached the Power Point Training Program, as it is copied from the one used in Alameda County and is available on their website. I have I apologize for not submitting this sooner, but as you know we are all working as quickly as possible to meet the needs of our communities.

Please let me know if you need additional information.

Sincerely,
